

PossibilitiesUnlimited

Please note: I have a large airy room in which it is possible to be at least two metres apart

COVID-19 Safety Procedures

- The door handles, chair, baggage box and toilet (if used) are sanitised with disinfectant after every face to face appointment (resultantly face to face sessions may be reduced to 80 minutes instead of the usual 90 minutes and the room may smell slightly of disinfectant)
- The window will be left open to allow air flow (this means that noises from the street outside will be louder, though it should not affect confidentiality)
- Face to face clients are not seen back to back, which allows at least 90 minutes for the room to air between clients

Requests

- **If you would like a drink please bring this with you**, as I am no longer offering refreshments to avoid potential contamination
- Upon entry please use the hand sanitiser provided
- If you have a bag or baggage please place it in the box provided
- Masks and gloves are provided (though they may be worn at your personal discretion, and I am happy to wear them if this makes you feel more comfortable)
